Cable Preparations

Site Name

Eastbrook Comprehensive School

Client

Wates

Sector

Electricity & Gas

Kor Energy's team installed a 1500 Kva Substation and Gas Installation at the new Eastbrook Comprehensive School in Dagenham.

The move of Eastbrook School now has a new modern feel with wider corridors, skylights and more colour, including :

- Two new sports Halls
- Science Labs "Super lab"
- New dance studio
- Extra Art rooms

Kor Energy is proud to help with this project with Eastbrook saying "the move has given the school a new lease of life"

Thank you to Wates for giving us the opportunity.

HV Intermediate Joints along the route due to the length of the cable route.

1500 Kva Substation
LV Customer Switch room
and bespoke Gas Kiosk.

Bespoke Gas Meter Housing
installed.

11M Low Pressure Rotary Meter
installed.

1500 kva Package Substation
within the GRP Housing
